EXAMINER'S AMENDMENT

1. Authorization for the following examiner's amendment was given in a telephonic message from David W. Victor, Reg.# 39, 867 on 2/16/2006:

Replace the abstract with the following:

ABSTRACT

Provided are a method, system and program for translating a source character string in a first character encoding into a target character string in a second character encoding. A plurality of specifications are maintained. Each specification has one of a plurality of scopes identifying at least one code page providing a mapping for source character strings in the first character encoding. The scopes specify different portions of the program to which the code page identified by the specification applies. The source character string for which translation is requested in the program is processed and a determination is made of one specification having one scope that is applicable to the processed source character string. The code page identified by the determined specification is used to translate the processed source character string in the first character encoding into the target character string in the second character encoding.

Conclusion

- I. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cesar B. Paula whose telephone number is (571) 272-4128. The examiner can normally be reached on Monday through Friday from 8:00 a.m. to 4:00 p.m. (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Hong, can be reached on (571) 272-4124. However, in such a case, please allow at least one business day.
